

November 21, 2019 Board Meeting

All motions and business transactions have been rescinded from the November 21st Board Meeting. All motions and variance requests will be added to December Board Meeting. Without the necessary 48 hours notice of schedule change, the actions taken in November were considered null and void. We changed the schedule to reflect the severe weather, thinking that would make it safer for residents to attend. The Board is sorry if this caused any difficulties; we were all concerned about driving in the inclement weather. Thank you for your understanding.
